A PERFECT AWAY

GOAL 25

THE solution for your team! On and off the pitch...

GREY MELANGE – the ideal colour for your
your **team!**

Can't decide which is the right colour for your team?
Then we recommend the new GOAL 25 line in **GREY
MELANGE** or **BLACK**.

As usual, the refinement of your new club colour can be
individually designed and created by us or a retailer.

Are you a genuine player?

Then check out the new **GOAL 25** line now.

THE SOLUTION FOR THE AWAY GAME

The **uhlsport** GOAL jersey series is extended by the colour GREY Mélange, which has not yet been seen on the pitch. But that's just the beginning - because the neutral-coloured away jerseys can be flocked with the colour of your choice - and thus adapted to your respective team colour. There is a wide range of colours to choose from for your

Perfect Away, including special colours. The team can also opt for the neutral jerseys or away suits in dark grey mélange and then have their individualised colour look printed on them, e.g. with name and number.

In the interest of better readability, we refrain from using both the masculine and other forms in the absence of gender-neutral wording. The chosen masculine formulations therefore apply without restriction to the other genders as well.

Our main catalogues are printed with an innovative UV printing solution to achieve improved recyclability. Thanks to the use of a new type of ink series, the printing ink can be removed more easily in the recycling process, enabling optimal recycling management.

The paper we use for printing, Soporset Premium Offset, has been certified according to the paper specification OCR (ISO 1831:1980), high opacity, white volume, EU Ecolabel and FSC®.

Subject to technical modifications, misprints, errors and price revisions. Colours may appear different in print from the original colours. All prices quoted are manufacturer's recommended prices. ADDGLUE The innovative ADDGLUE technology ensures a seamless surface and optimum roundness of the ball thanks to its double adhesive properties. The result: optimum ball control, outstanding flight characteristics, long durability and very low water absorption.

SYNERGY are sewn footballs with additional adhesive on the seams and available at two different quality and price levels.

THERMOBONDED means seamless thermal bonding of the ball as well as a unique ball design, which has been used in professional football for years.
